Krishna Meghwal

Undergraduate

I'm looking for a good work experience opportunity and an organization that would provide me the chance to develop my skills and broaden my knowledge along with working on organizational projects. For me, the primary objective is to acquire new skills and to use them in a way that can somehow make a positive impact on society and I get motivated by the same.

PROJECTS

To-Do Webapp (08/2020 - 08/2020)
- The objective of this project is to showcase my front-end skills and to develop the practical knowledge required to work on any project .I developed this project using Javascript and the react library. While doing this project, I learned How to work with the react library and I also gained intermediate knowledge of Javascript.

Portfolio - Website (07/2020 - 07/2020) ⧉
- The objective of this project is to showcase my skills.I have developed this static Portfolio website using HTML and CSS. While doing this project I learned HTML, CSS. I also learned how to use git and how to publish my project on Github. I have used grid layouts to format the content of the page and I have deployed this project using github pages.

Space-Invader (04/2020 - 04/2020)
- I have developed this game using Python language, While developing this game I learned to implement the knowledge of python that I got while I was doing a python course on Udemy. I used the Pygame module. I have used the cx_Freeze module to make a desktop application of the game.
